A

- Abscesses. Intracranial abscesses in Odense Hospital. Survey of bacteriology, epidemiology, and treatment with antibiotics, 1963-1989 5/407
- Abdominal vascular surgery. Extracellular fluid and colloid osmotic pressure in abdominal vascular surgery. A study of volume changes 1/9
- Acute myeloid leukemia. Features of the initial metabolism of 1- β -D-arabinofuranosylcytosine in human myeloid leukemic cells 1/77
- Adipocytes. Insulin receptor binding and action in human adipocytes. A critical approach to methods, correlations with receptor binding to other cell types, and relations between insulin binding and action 3/252
- Adipose tissue. Prostaglandins in adipose tissue - with special reference to triglyceride metabolism 3/228
- Agger, Anders Ole: See Milman, Nils 6/471
- Ahnfelt-Rønne, Ian: Rationales for drug development in inflammation: Eicosanoids and oxygen-derived free radicals 4/291
- AIDS. Anxiety in voluntary HIV-antibody testing in pregnancy and its implications for preventive strategies .. 3/285
- AIDS. Serological investigations of human immunodeficiency virus (HIV) infection 1/22
- AIDS. The prognosis in HIV-infected patients with pneumonia. Relation to microbiological diagnoses 6/468
- AIDS dementia complex. Central nervous system involvement in human immunodeficiency virus disease 4/374
- AIDS immunology: HIV induced cellular immune deficiency 1/53
- Airways obstruction. Bronchodilator and corticosteroid reversibility in ambulatory patients with airways obstruction 6/486
- Albuminuria - a marker of renal and generalized vascular disease in insulin-dependent diabetes mellitus 2/134
- Allergy. Therapeutic aspects in house dust mite allergy .. 5/390
- Almdal, Thomas Peter: Importance of glucagon for nitrogen loss in diabetes - via an accelerated hepatic conversion of amino nitrogen to urea nitrogen 2/113
- Alsbjörn, Bjarne F.: Towards early excision and extended grafting of excessive burns 4/328
- Alveolar epithelium. Pulmonary clearance of ^{99m}Tc-DTPA. An index of alveolar epithelial permeability 3/189
- Anaesthesia. The effects of general anaesthesia on antroduodenal motility, gastric pH and gastric emptying in man 4/347
- Andersen, Bjørn: See Gjørup, Ida E. 5/405
- Andersen, Else: See Andersen, Karen Vitting 4/382

- Andersen, Karen Vitting, Aksel P. Lange, Karin Helweg-Larsen & Else Andersen: A perinatal audit of neonatal deaths in three Danish counties 4/382
- Andreasen, Carsten: See Sørensen, Henrik Toft ... 5/420, 5/423
- Ankylosing spondylitis - education, employment and invalidity 3/282
- Anti-inflammatory agents. Comparison of search strategies for recalling double-blind trials from MEDLINE 6/476
- Antibiotics. Changes in prescription of antibiotics in general practice in relation to different strategies for drug information 4/380
- Arabinofuranosylcytosine. Features of the initial metabolism of 1- β -D-arabinofuranosylcytosine in human myeloid leukemic cells 1/77
- Arlén-Søborg, Peter: See Pedersen, Court 4/374
- Arthritis. Comparison of search strategies for recalling double-blind trials from MEDLINE 6/476
- Asthma. Bronchodilator and corticosteroid reversibility in ambulatory patients with airways obstruction 6/486
- Atherosclerosis. Albuminuria - a marker of renal and generalized vascular disease in insulin-dependent diabetes mellitus 2/134
- Atherosclerosis. Atherogenesis in diabetic cholesterol-fed rabbits 1/1

B

- Bacteriology. Intracranial abscesses in Odense Hospital. Survey of bacteriology, epidemiology, and treatment with antibiotics, 1963-1989 5/407
- Baden, Helge: See Gjørup, Ida E. 5/405
- Beck-Nielsen, Jørgen: See Hallas, Jesper 5/417
- Behçet's colitis. Fusidic acid for Behçet's colitis: a novel approach to T cell specific immunosuppressive therapy 3/284
- Bendtsen, Klaus: See Langholz, Ebbe 3/284
- Beta-adrenoceptors. Platelet beta-adrenoceptor function. Experimental and clinical studies with special reference to age and stress 2/159
- Bias. A prospective multipractice study based on antecedent data. Reduced selection and behaviour bias 5/423
- Birgens, Henrik S.: The interaction of lactoferrin with human monocytes 3/244
- Bleedings. Haemostasis in oral surgery - the possible pathogenetic implications of oral fibrinolysis on bleeding. Experimental and clinical studies of the haemostatic balance in the oral cavity, with particular reference to patients with acquired and congenital defects of the coagulation system 6/427
